

ACCESS STATEMENT

ARRIVAL

On arrival to the Island of St. Martin's which is only possible by boat, you can be met by us for your luggage to be transported to the campsite (small fee).

There are no taxis or public transport on St. Martins.

MAIN ENTRANCE

The campsite main entrance is off the island's only road (which consists of a rough concrete surface.) The concrete path down to the site is approx 2m wide, 80m long and has a gradient of approx 1 in 15.

THE SITE

The site is all grass which is kept short.

The site is made up to 3 fields.

One of the fields is on a slight slope.

Included in each field is a small 'terraced' area all grassed but with no dedicated access i.e. no steps or gradual slopes.

A natural ridge runs through the middle of the site. Two access pathways, one 1m wide and one 2m wide, and both with a gradient of approx 1 in 5, give access through this ridge. Both pathways have a natural loose surface.

These pathways lead to further camping areas, the laundry, washing up areas, WC and shower facilities and a route to the beach.

STANDPIPE HEIGHT (x2)

70 cm

LAUNDRY

3 steps lead up to the laundry (2 are 10cm high, 85cm wide and 43cm deep, 1 is 10cm high 85cm wide and 75cm deep).
